

- ● Five persons A, B, C, D and E are sitting in a row, facing North, but not necessarily in the same order. A is three places away from C. D is two places away from B. E is not adjacent to C. If D sits at the right end, then what is the order in which these five persons sit?
(A) ACBED (B) AEBCD
(C) CABED (D) Cannot be determined
- ● Five friends S, T, U, V and W sit in a row, facing South, not necessarily in the same order. Only two persons sit between S and V. W sits exactly between V and T, but V does not sit at any end. Who sits to the immediate left of W?
(A) S (B) T
(C) U (D) Cannot be determined
